

Dr. Dominique GILLET

dgillet@mcpldari.com

Dominique Gillet is a marine biologist and entrepreneur; he has set up and manages one of the largest chitin/chitosan producing plants in the world: "MAHTANI CHITOSAN Pvt. Ltd." www.chitinindia.com

Production and Marketing:

Dominique Gillet founded FRANCE CHITINE in 1992, MAHTANI CHITOSAN in 1995, and GILLET CHITOSAN in 2003.

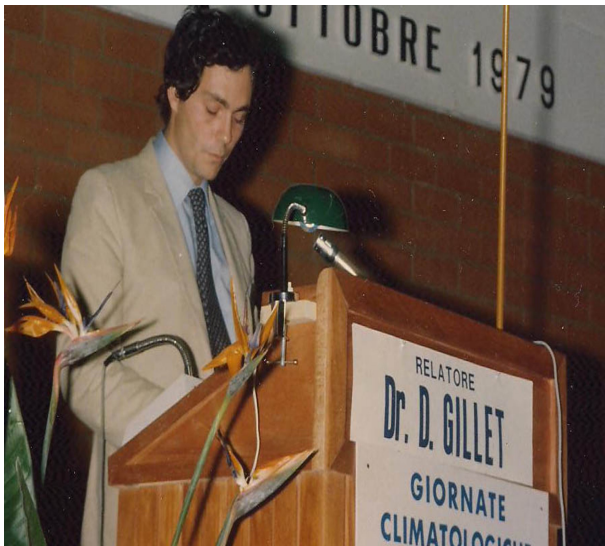

Out of 5000 MT/year of shrimp shells, he is producing and selling 150 MT/year of chitin and 30 MT/year of chitosan.

Research and Development:

Dominique Gillet have participated as advisor and chitin and chitosan supplier to different European and International Research Projects such as: CARAPAX, CHITOMED, CATIONIC BRAN, NANOBIOSACCHARIDES (NBS), Novel Polysaccharide Modifying Enzymes (PolyModE), PANSKIT, CuChi-BCA, and he is currently participating in Nano3Bio.

Main Area of Competence:

large scale production of chitin and chitosans of high and reproducible quality, with well-defined molecular weight and degree of acetylation.

MARINE BIOLOGIST SINCE 1976

CHITOSAN PRODUCER SINCE 1992
